

CERTIFICATE OF CLOUD SECURITY KNOWLEDGE PLUS

CCSK PLUS | COURSE CODE: SEC-304

COURSE DETAILS

Intrinsec's official 3-day CCSK Plus course will successfully prepare you for the Certificate of Cloud Security Knowledge (CCSK) exam.

The first two days of your CCSK training will be spent reviewing the official courseware that Cloud Security Alliance (CSA) has created for this class. The courseware includes all major domains in the CSA Security Guidance for Critical Areas of Focus in Cloud Computing document, along with the ENISA whitepaper.

COURSE BREAKDOWN

This class will review the key topics found on the most current edition of the CCSK exam (version 4). These topics include all of the major domains from the updated Cloud Security Alliance (CSA) Security Guidance for Critical Areas of Focus in Cloud Computing and the ENISA whitepaper.

MODULE 1	Introduction and Cloud Architectures	MODULE 4	Data Security for Cloud Computing
MODULE 2	Infrastructure Security for the Cloud	MODULE 5	Securing Cloud Applications & Users
MODULE 3	Managing Security & Risk in the Cloud	MODULE 6	Selecting Cloud Services
