

CERTIFIED ETHICAL HACKER

CEH | COURSE CODE: SEC-312

EC-Council

COURSE DETAILS

35
CPE CREDITS

5
DAYS

Intrinsec's Certified Ethical Hacker (CEH) training program gives students a full review of how they can professionally, and ethically, look for weaknesses and vulnerabilities in target systems; all while using the same knowledge and tools as a malicious hacker would—but in a lawful and legitimate manner. There are several types of exercises throughout Intrinsec's CEH training experience, all designed to reinforce topics and increase knowledge retention.

Intrinsec's CEH can be delivered OnSite, OnLine or in a Classroom setting. Additionally, this training program will directly help students prepare for the CEH certificate exam issued by EC-Council.

COURSE BREAKDOWN

Intrinsec's CEH training and course material focuses on the 18 examination domains within the CEH certification. For more information on these domains, along with additional course details, please visit Intrinsec's [CEH course webpage](#).
