

EC-COUNCIL CERTIFIED SECURITY ANALYST

ECSA | COURSE CODE: SEC-319

COURSE DETAILS

The EC-Council Certified Security Analyst (ECSA) penetration testing course provides you with a real-world hands-on penetration testing experience and is a globally accepted hacking and penetration testing course that covers the testing of modern infrastructures, operating systems and application environments while teaching the students how to document and write a penetration testing report.

The training exercises and class material takes the tools and techniques that are reviewed in the Certified Ethical Hacker (CEH) course and teaches students how to apply these skills/tools by utilizing EC-Council's published penetration testing methodology.

COURSE BREAKDOWN

Intrinsec's ECSA training and course material focuses on the 16 examination domains within the ECSA certification. For more information on these domains, along with additional course details, please visit Intrinsec's [ECSA website page](#).
