Intrinsec’s Certified Cloud Security Professional (CCSP) course is a five-day, 35 CPE training program which focuses on cloud computing and its information security risk and mitigation strategies. Intrinsec’s CCSP participants are provided with a comprehensive review of procuring, securing and managing cloud environments or purchased cloud services; all of which is reinforced with practical activities (group and individual).

Additionally, this course will directly help those who are preparing to write the CCSP certification exam issued by (ISC)².

Intrinsec’s CCSP training and course material focuses on the six (6) domains within the CCSP certification issued by (ISC)². For more information on these domains, or additional course details, please visit Intrinsec’s CCSP website page.

### COURSE BREAKDOWN

<table>
<thead>
<tr>
<th>Domain</th>
<th>Architectural Concepts &amp; Design Requirements for the Cloud</th>
