DAYS

Intrinsec's Certified Network Defender (CND) course is a five day training program that prepares network administrators on network security technologies and operations to attain Defense-in-Depth network descurity preparedness. It covers the protect, detect and respond approach to network security. Intrinsec's CND contains hands-on labs, based on major network security tools and techniques which provides real world expertise on current network security technologies and operations.

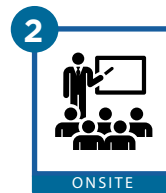

Intrinsec's CND training program will directly help students prepare for the CND certificate exam issued by EC-Council.

COURSE BREAKDOWN

Intrinsec's CND training and course material focuses on the 14 examination domains within the CND certification. For more information on these domains, along with additional course details, please visit Intrinsec's [CND website page](#).

DOMAIN 1	Computer Network and Defense Fundamentals	DOMAIN 8	Secure IDS Configuration and Management
