

CERTIFIED AUTHORIZATION PROFESSIONAL

CAP | COURSE CODE: SEC-309

COURSE DETAILS

The Certified Authorization Professional (CAP) program is designed for the information security practitioner who champions system security commensurate with an organization's mission and risk tolerance while meeting legal and regulatory requirements.

Led by an (ISC)² authorized instructor, the training and included course material for this official training seminar provides students with a comprehensive review of the knowledge and skills required to assess risk and establish security requirements and documentation. Additionally, this course will also help students successfully prepare for the CAP exam as it covers all seven domains of the CAP Common Body of Knowledge (CBK).

COURSE BREAKDOWN

This official (ISC)² training seminar is based on the seven domains found within the (ISC)² Common Body of Knowledge (CBK) for CAP, ensuring students successfully prepare for the CAP certification.

DOMAIN 1	Risk Management Framework (RMF)	DOMAIN 5	Security Control Assessment
DOMAIN 2	Categorization of Information Systems	DOMAIN 6	Information Systems Authorization
DOMAIN 3	Selection of Security Controls	DOMAIN 7	Monitoring of Security Controls
DOMAIN 4	Security Control Implementation

COURSE FEATURES

Professionals who register for Intrinsec's CAP course are provided with an unmatched number of benefits designed to maximize their cyber security training experience. The following features are included with all CAP registrations:

- 5 Days of CAP Training from an Authorized (ISC)² Instructor
- Official (ISC)² CAP Training Courseware
- Official (ISC)² CAP Student Guide
- Official (ISC)² CAP Training Flashcards
- 60 Days of OnDemand Access to the Recordings of your CAP Session (Video & Audio)

INTENDED AUDIENCE

The intended audience for the CAP training program is IT professionals who are focused on security assessment and authorization and continuous monitoring issues. It's also a great fit for those who are interested in improving cybersecurity and learning more about the importance of lifecycle cybersecurity risk management. Typically, the CAP course is ideal for those working in roles such as, but not limited to:

- IT Professionals
- Information Security Professionals
- Information Assurance Professionals
- Inspector Generals
- Auditors
- Program Managers
- Executives

“Intrinsec Security is one of our trusted official training providers within Canada and the United States. Their dedication to providing professionals and enterprises with our certification training programs has certainly helped with our progression in inspiring a safe and secure cyber world.”
