

COMPTIA ADVANCED SECURITY PRACTITIONER

CASP | COURSE CODE: SEC-315

COURSE DETAILS

CompTIA Advanced Security Practitioner (CASP) meets the growing demand for advanced IT security within the enterprise. Recommended for IT professionals with at least 5 years of experience, CASP certifies critical thinking and judgment across a wide range of security disciplines and requires candidates to implement clear solutions in complex environments.

Led by an authorized CompTIA instructor, the training and course material for this official CASP training seminar provides students with a comprehensive review of the technical knowledge and skills required to conceptualize, engineer, integrate, and implement secure solutions across complex enterprise environments. This course will also help students successfully prepare for the CASP certification exam.

COURSE BREAKDOWN

This authorized CompTIA CASP training seminar has a total of 12 modules, collectively helping you prepare for the CASP certification exam while enhancing your overall competencies in IT security. The 12 modules of the CASP course are the following:

DOMAIN 1	Managing Risk	DOMAIN 7	Implementing Security Controls for Enterprise Storage
DOMAIN 2	Computing, Communications, and Business Disciplines	DOMAIN 8	Analyzing and Implementing Network Security
DOMAIN 3	Using Research and Analysis to Secure the Enterprise	DOMAIN 9	Implementing Security Controls for Applications
DOMAIN 4	Advanced Authentication and Authorization Techniques	DOMAIN 10	Integrating Hosts, Storage, Networks, and Applications
DOMAIN 5	Implementing Cryptographic Techniques	DOMAIN 11	Conducting Vulnerability Assessments
DOMAIN 6	Implementing Security Controls for Hosts	DOMAIN 12	Responding to and Recovering from Incidents

COURSE FEATURES

Professionals who register for Intrinsec's CASP course are provided with a wealth of resources designed to maximize their cloud security training experience. The following features are included with all CASP registrations:
