

# CERTIFIED CLOUD SECURITY PROFESSIONAL

CCSP | COURSE CODE: SEC-307

## COURSE DETAILS

Designed by two of Intrinsec's official partners, (ISC)<sup>2</sup> and Cloud Security Alliance, the Certified Cloud Security Professional (CCSP) training program and CCSP certification were created for both professionals and organizations who are interested in validating their cloud security capabilities. More specifically, the CCSP training program will prove you have the knowledge and hands-on experience with cloud security architecture, design, operations and service orchestration.

Intrinsec's five-day CCSP training course will help you develop the necessary knowledge and skills to face new cloud computing threats and challenges. It will also help you prepare for the CCSP certification exam offered by (ISC)<sup>2</sup>. Students review all six of the CCSP domains and gain a wealth of current information on the (ISC)<sup>2</sup> Common Body of Knowledge (CBK) for the CCSP exam.

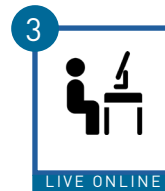

## COURSE BREAKDOWN

Intrinsec's official CCSP training program is based on the six domains from the (ISC)<sup>2</sup> Common Body of Knowledge (CBK) for the CCSP. By reviewing the CBK students can successfully prepare for the CCSP certification exam while also developing their overall competencies in cloud security.

DOMAIN 1	Cloud Architectural Concepts and Design Requirements	DOMAIN 4	Cloud Application Security
DOMAIN 2	Cloud Data Security	DOMAIN 5	Cloud Security Operations
DOMAIN 3	Cloud Platform Infrastructure Security	DOMAIN 6	Legal and Compliance for the Cloud

## COURSE FEATURES

Professionals who register for Intrinsec's Certified Cloud Security Professional (CCSP) course are provided with an unmatched number of benefits designed to maximize their cloud security training experience. The following features are included with all CCSP registrations:

- 5 Days of CCSP Training from an Authorized (ISC)<sup>2</sup> Instructor
- Official (ISC)<sup>2</sup> CCSP Training Courseware
- Official (ISC)<sup>2</sup> CCSP Student Guide
- 60 Days of OnDemand Access to the Recordings of your CCSP Session (Video & Audio)

## INTENDED AUDIENCE

The intended audience for the CCSP certification course is experienced IT professionals who are involved with IT architecture, web and cloud security engineering, information security, governance, risk and compliance or IT auditing. Typically CCSP training is ideal for those working in roles such as, but not limited to:

- Enterprise Architects
- Security Administrator
- Systems Engineers
- Security Architects
- Security Consultants
- Security Engineers
- Security Managers
- System Architects
- Cloud Specialists

“Intrinsec Security is one of our trusted official training providers within Canada and the United States. Their dedication to providing professionals and enterprises with our certification training programs has certainly helped with our progression in inspiring a safe and secure cyber world.”
