

# CERTIFIED INFORMATION SYSTEMS AUDITOR

CISA | COURSE CODE: SEC-323

## COURSE DETAILS

ISACA's Certified Information Systems Auditor (CISA) designation is a globally recognized certification for IS audit control, assurance and security professionals. Being CISA-certified showcases your audit experience, skills, and knowledge, and demonstrates you are capable of assessing vulnerabilities, report on compliance and institute controls within the enterprise.

All that to be said, this official training seminar is packed with practical information and study tips, making it a great resource for those interested in obtaining the CISA certification. Additionally, this official CISA course is also a tool for those interested in enhancing their IS audit, control, and security skills.

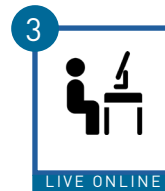

## COURSE BREAKDOWN

This official CISA training seminar has a total of seven primary sections. All seven sections will collectively help you prepare for the CISA certification exam while also enhancing your overall competencies in auditing, controlling, monitoring and assessing information technology and business systems. The seven primary sections you will cover are the following:

DOMAIN 1	The Process of Auditing Information Systems	DOMAIN 4	Information Systems Operations, Maintenance and Service Management
DOMAIN 2	Governance and Management of IT	DOMAIN 5	Protection of Information Assets
DOMAIN 3	Information Systems Acquisition, Development, and Implementation
