

# COMPTIA CYBERSECURITY ANALYST

CSA+ | COURSE CODE: SEC-315

## COURSE DETAILS

CompTIA Cybersecurity Analyst (CSA+) is a vendor-neutral cyber security program that applies behavioral analytics to improve the overall state of an organizations IT security. Intrinsic's CompTIA CSA+ training will develop the critical knowledge and skills that are required to prevent, detect and combat cybersecurity threats.

Led by an authorized CompTIA instructor, Intrinsic's CompTIA CSA+ training program will cover the expected skills and knowledge of those who are responsible for monitoring and detecting security incidents in information systems and networks, and for executing a proper response to such incidents. The course will introduce tools and tactics you can use to manage cybersecurity risks, identify various types of common threats, evaluate the organization's security, collect and analyze cybersecurity intelligence, and handle incidents as they occur. Additionally, this course will also help students successfully prepare for the CompTIA CSA+ exam.

## COURSE BREAKDOWN

This official CompTIA CSA+ training seminar has a total of five primary modules. All five sections will collectively help you prepare for the CSA+ certification exam while also enhance your overall competencies in cybersecurity. The five modules of this class are the following:

DOMAIN 1 Threat Management (Pt. 1)

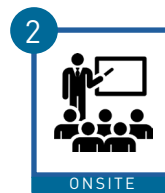

DOMAIN 4 Cyber Incident Response

DOMAIN 2 Vulnerability Management

DOMAIN 5 Security Architecture

DOMAIN 3 Threat Management (Pt. 2)

## COURSE FEATURES

Professionals who register for Intrinsec's CompTIA Cybersecurity Analyst course are provided with an unmatched number of benefits designed to maximize their cloud security training experience. The following features are included with all CompTIA Cybersecurity Analyst registrations:

- 5 Days of CompTIA CSA+ Training from an Authorized Instructor
- CompTIA approved CSA+ Training Courseware (Printed)
- CompTIA approved CSA+ Training Student Guide
- CompTIA approved CSA+ Labs
- CompTIA approved CSA+ Practice Exams
- 1 CompTIA CSA+ Exam Voucher

## INTENDED AUDIENCE

The CompTIA CSA+ training program, much like the certification itself, is intended for professionals who use threat detection tools, perform data analysis, and interpret the results to identify vulnerabilities, threats, and risks to an organization with the end goal of securing and protecting applications and systems within an organization. Some example job functions may include, but are not limited to:

- IT Security Analyst
- Vulnerability Analyst
- Threat Intelligence Analyst
- SOC Analyst
- Security Engineer
- Cybersecurity Specialist
