

CERTIFIED SECURE SOFTWARE LIFECYCLE PROFESSIONAL

CSSLP | COURSE CODE: SEC-317

COURSE DETAILS

Led by an (ISC)² authorized instructor, the following course is an official (ISC)² training seminar for the Certified Secure Software Lifecycle Professional (CSSLP) certification, which confirms that a software professional has the expertise to incorporate security practices into each phase of the SDLC, from software design and implementation to testing and deployment.

The training and provided course material for this official (ISC)² training seminar will teach students how to build secure software. Additionally, this course will also help students successfully prepare for the CSSLP exam as it provides a comprehensive review of the eight domains for the CSSLP Common Body of Knowledge (CBK).

COURSE BREAKDOWN

This (ISC)² authorized CSSLP training seminar is based on the eight CSSLP domains of the (ISC)² Common Body of Knowledge (CBK), ensuring students successfully prepare for the CSSLP exam and enhancing their overall competencies in secure software development.

DOMAIN 1	Secure Software Concepts	DOMAIN 5	Secure Software Testing
DOMAIN 2	Secure Software Requirements	DOMAIN 6	Secure Software Lifecycle Management
DOMAIN 3	Secure Software Design	DOMAIN 7	Software Deployment, Operations, and Maintenance
DOMAIN 4	Secure Software Implementation/Programming	DOMAIN 8	Supply Chain and Software Acquisition
