

CLOUD AUDIT AND COMPLIANCE

CAC | COURSE CODE: SEC-305

COURSE DETAILS

Cloud Audit and Compliance is the ideal course for those who are responsible for auditing, controlling, monitoring and/or assessing cloud services and providers. Over a period of 2-days this course provides students with a combination of lecture and hands-on activities, making it a great resource for learning best practices of cloud adoption and how the cloud impacts audit and compliance activities.

Additionally, this course provides students with a workshop environment in which they create and execute an audit plan based on their security policy. Students will work together to identify and assess risks within their own environments based on internal documentation as well as Cloud Security Alliance, NIST and vendor guidance papers.

COURSE BREAKDOWN

In Cloud Audit and Compliance you will spend a total of 2-days reviewing all eight domains featured in your course material. Additional information on what you can expect to learn while reviewing each domain is found below.

DOMAIN 1	Cloud Baseline	DOMAIN 5	Assessing Cloud Service Providers with CSA Tools
DOMAIN 2	Governance, Risk Management and Compliance	DOMAIN 6	Assessing Internal Consumption of Cloud Services
DOMAIN 3	Compliance Certifications, Standards and Frameworks	DOMAIN 7	Governance and Security for SaaS Adoption
DOMAIN 4	FedRAMP	DOMAIN 8	Security Controls and Tools for IaaS
