

# SYSTEMS SECURITY CERTIFIED PRACTITIONER

SSCP | COURSE CODE: SEC-311

## COURSE DETAILS

The Systems Security Certified Practitioner (SSCP) credential and training seminar is ideal for those who require proven technical skills and practical security knowledge in hands-on operational IT roles. More specifically, SSCP will teach you to implement, monitor and administer IT infrastructure in accordance with information security policies and procedures that ensure data confidentiality, integrity and availability.

Led by an (ISC)² authorized instructor, the training and included course material for this official training seminar provides students with a comprehensive review of the information security knowledge and skills needed to be successful in IT operational roles. Additionally, this course will also help students successfully prepare for the SSCP exam as it covers all seven domains in the CCSP Common Body of Knowledge (CBK).

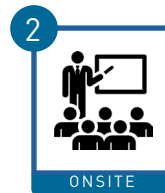

## COURSE BREAKDOWN

This (ISC)² authorized SSCP training seminar is based on the seven SSCP domains of the (ISC)² Common Body of Knowledge (CBK), ensuring students successfully prepare for the SSCP exam and enhance their overall competencies in cyber security.

DOMAIN 1	Access Controls	DOMAIN 4	Incident Response and Recovery
DOMAIN 2	Security Operations and Administration	DOMAIN 5	Cryptography
DOMAIN 3	Risk Identification, Monitoring, and Analysis	DOMAIN 6	Networks and Communications Security
		DOMAIN 7	Systems and Application Security
